One-line: Service Catalog core components are Catalog Items, Order Guides, and Record Producers.

2. What happens when coalesce fields match during import?

- A. Existing record updated
- B. No Transform Map created
- C. New record created
- D. Existing record updated if no match

✓ Answer: A

One-line: Coalesce updates existing records when a match is found.

3. What does a metric do?

- A. Homepage gauge
- B. Time measurement for workflows/SLAs
- C. Measures ITSM effectiveness
- D. Comparative flow measurement

✓ Answer: B

One-line: Metrics measure time-based performance like SLA durations.

4. What controls variable display sequence in Catalog Items?

- A. Default Value
- B. Sequence
- C. Order field
- D. Choice field

☒ Answer: C

One-line: Variable order is controlled using the Order field.

5. Reports can be created from? (Choose 2)

- A. List column heading
- B. Metrics module
- C. Statistics module
- D. View/Run module

☒ Answers: A, D

One-line: Reports are commonly created from list headers and View/Run module.

6. Knowledge Base search results can be sorted by? (Choose 3)

- A. Most recent update
- B. Popularity
- C. Relevancy
- D. Manager assignment
- E. Number of views

☒ Answers: A, B, C

One-line: KB articles are sorted by relevance, popularity, and recency.

7. Path to fulfillment task list?

- A. RITM > REQ > PROCUREMENT
- B. REQ > RITM > PROCUREMENT
- C. REQ > RITM > TASK
- D. FULFILLMENT > RITM > TASK

☒ Answer: C

One-line: Request flow is REQ → RITM → TASK.

8. Menus/modules accessed quickly and often are called?

- A. Breadcrumb
- B. Favorite
- C. Tag
- D. Bookmark

☒ Answer: B

One-line: Favorites store frequently used modules and menus.

9. What is generated after ordering from Service Catalog?

- A. Change Request
- B. Order Guide
- C. Request
- D. SLA

☒ Answer: C

One-line: A Service Catalog order creates a Request (REQ).

10. Actions available from User menu? (Choose 3)

- A. Send Notifications
- B. Log Out
- C. Elevate Roles
- D. Impersonate Users
- E. Order Catalog
- F. Approve Records

☒ Answers: B, C, D

One-line: User menu supports logout, role elevation, and impersonation.

11. Buttons, links, context menu items are examples of?

- A. Business Rule
- B. UI Action

- C. Client Script
- D. UI Policy

✓ Answer: B

One-line: UI Actions create buttons, links, and menu actions.

12. Service Catalog Items are?

- A. Behind the scenes
- B. Building blocks
- C. Optional
- D. Provide options

✓ Answer: B

One-line: Catalog Items are the core building blocks of Service Catalog.

13. ACL processing order?

- A. Wildcard → Parent → Table
- B. Table → Parent → Wildcard
- C. Parent → Table → Wildcard
- D. Wildcard → Table → Parent

✓ Answer: A

One-line: ACLs process from generic to specific.

14. Platform name for User table?

- A. u_users
- B. sys_users
- C. x_users
- D. sys_user

✓ Answer: D

One-line: User table name is sys_user.

15. REQ number represents?

- A. Order number
- B. Stage
- C. Task
- D. Individual item

✓ Answer: A

One-line: REQ represents the overall request/order.

16. What would NOT appear in Application Navigator History?

- A. Records
- B. UI Pages
- C. Lists
- D. Forms

✓ Answer: B

One-line: UI Pages do not appear in navigation history.

17. Update Set recommendation?

- A. Avoid Default Update Set
- B. Instances must differ in version
- C. Use Baseline Update Set
- D. Reopen completed update sets

✓ Answer: A

One-line: Never use Default Update Set for migrations.

18. What initiates a Flow?

- A. Trigger
- B. Core Action
- C. Spoke
- D. Event

✓ Answer: A

One-line: Every flow starts with a Trigger.

19. Characteristic of Catalog variables?

- A. Only in Record Producers
- B. Only in Order Guides
- C. Cannot affect price
- D. Global by default

☒ Answer: D

One-line: Service Catalog variables are global by default.

20. Column Context Menu does what?

- A. Quick reports/configure/export
- B. Filtering/tags/search
- C. List filtering/viewing
- D. Form relationship actions

☒ Answer: A

One-line: Column context menus support reporting, configuration, and export actions.

21. Module to create Notifications?

- A. System Notification > Email > Notifications
- B. Administration > Notification Overview
- C. System Properties > Email
- D. User Preferences > Notifications

☒ Answer: A

One-line: Notifications are created under System Notification → Email.

- A. Long-term signals
- B. Non-signals
- C. Anti-signals
- D. Stability signals

☒ Answer: D

One-line: Stability signals support long-term workflow analysis.

23. UI Policy can make fields hidden/read-only/mandatory.

- A. True
- B. False

☒ Answer: A

One-line: UI Policies control visibility, mandatory, and read-only behavior.

24. Business Rules enforce mandatory fields on forms.

- A. True
- B. False

☒ Answer: B

One-line: Mandatory enforcement is mainly done with UI Policies or Dictionary settings.

25. Number of common interface types?

☒ Answer: 6

One-line: Homepage, List, Form, Dashboard, Maps, Timelines.

26. Benefits of Flow Designer? (Choose 3)

- A. 3rd-party integrations
- B. IDE scripting
- C. Natural-language logic
- D. No-code development
- E. Auto SLA creation
- F. Complex coding APIs

☒ Answers: A, C, D

One-line: Flow Designer focuses on low-code automation and integrations.

27. Path to table configuration page?

- A. View > Table
- B. Configure > Table
- C. Configure > Dictionary
- D. View > Show Table

✓ Answer: B

One-line: Table configuration is accessed via Configure → Table.

28. Role required to import knowledge articles?

- A. sn_knowledge_import
- B. sn_knowledge_contribute
- C. Can contribute
- D. Can import

✓ Answer: A

One-line: sn_knowledge_import role allows KB article imports.

29. Relationship between Incident and Task tables?

- A. Many-to-many
- B. One-to-many
- C. Incident extends Task
- D. Related via INC number

✓ Answer: C

One-line: Incident is a child table extending Task.

30. Records created after catalog order? (Choose 2)

- A. sc_task
- B. sc_req_item
- C. Change
- D. Incident
- E. Problem

✓ Answers: A, B

One-line: Catalog orders create Requested Items and Catalog Tasks.

31. How to show Save button on form header?

- A. Turn on glide.ui.advanced
- B. Form Design
- C. Turn on Save property
- D. Form Layout

☒ Answer: A

One-line: glide.ui.advanced enables additional form controls.

32. How do flows reference record data?

- A. Drag table icon
- B. Condition Builder
- C. Source table on pill list
- D. Drag Data Pill

☒ Answer: D

One-line: Flow Designer uses Data Pills for referencing data.

33. Technique for accessing referenced fields across tables?

- A. Table-Walking
- B. Sys_ID Pulling
- C. Dot-Walking
- D. Record-Hopping

☒ Answer: C

One-line: Dot-walking retrieves data through reference fields.

34. Ways to assign task to yourself? (Choose 2)

- A. Person icon
- B. Edit Assigned To
- C. Assign To Me from list header
- D. Right-click → Assign to me
- E. Assign from form

✓ Answers: C, D

One-line: Tasks can be self-assigned directly from list actions.
